Southeast Historic District

cell phone audio tour

A brochure created by the SE Historic District neighborhood, preserving history through historic homes while building a community that future generations can be proud of.

CALL: (352) 752 - 8899

Special Credit to: Charmallee "Charmie" Middleton of the Magnolia Plantation

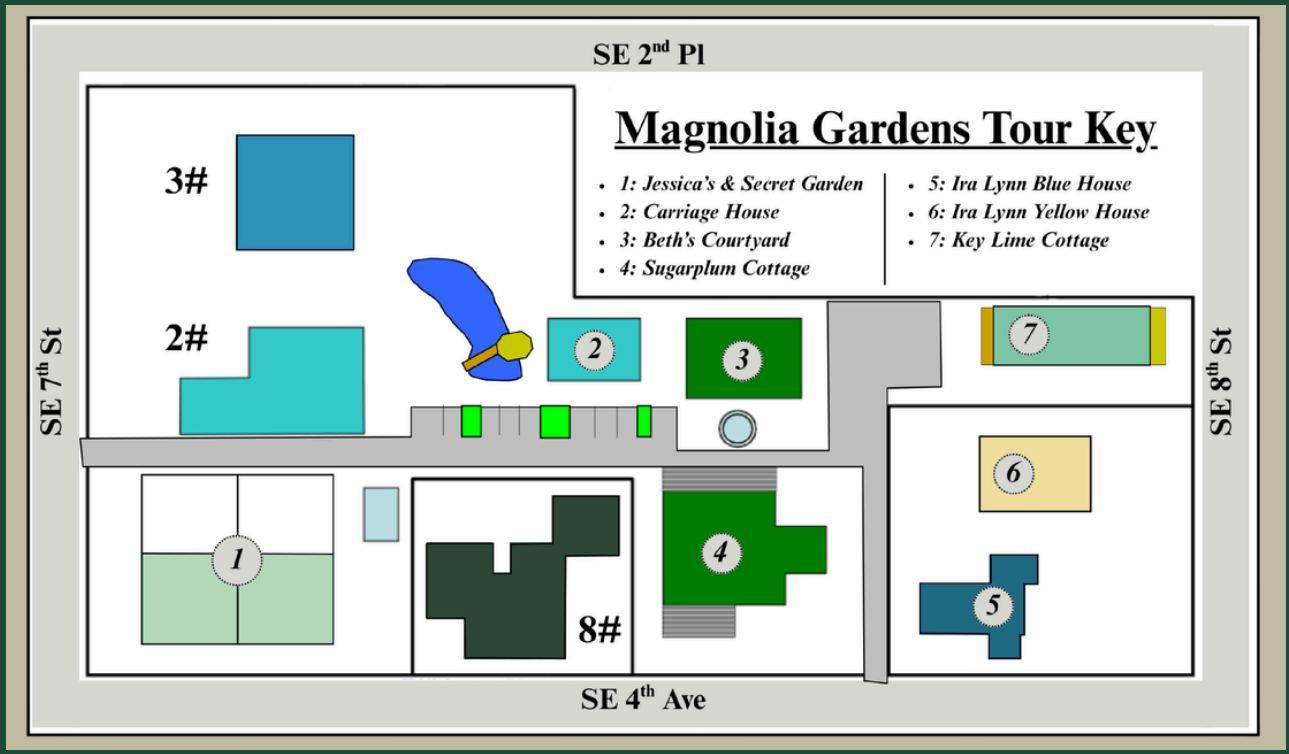

Designer of the Brochure
Voice of the SE Historic District Audio Tour

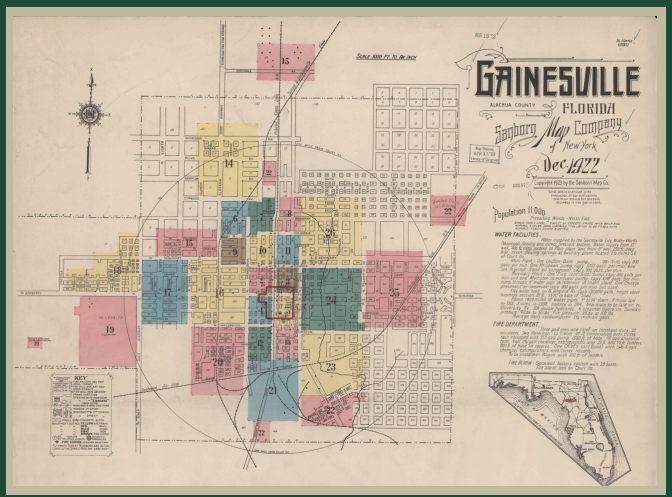

One of Gainesville's oldest residential communities, the Southeast Historic District had its origins in the post-Civil War development of the city and evolved through seven additional subdivisions. At the moment, our tour covers 20 different properties in the SE Historic District.

You can visit each property using the map on the backside of this brochure. At each stop, you will find a sign that corresponds with the audio tour number listed on the map.

This is a 1922 Sanborn Map of Gainesville, Florida.

You may have noticed that some audio tours mention something called a 'Sanborn Map'. A Sanborn Map, created by the Sanborn Map Company, was a map made for fire insurance companies who would catalog in great detail the materials to build historic homes, the layouts of historic homes, and most importantly, the location of said historic homes.
